About Me

I am a highly motivated and enthusiastic web developer who is passionate about learning new skills and staying up-to-date with the latest trends in the Web Development. I have a good knowledge in HTML, CSS and Javascript, I am committed for creating innovative and user-friendly websites that delivers the good user experiences.

Projects

1. Medical Chatbot

- The chatbot was designed to respond to a wide range of health-related queries, including symptoms, medication information, and general medical advice. The chatbot utilized Dialogflow's natural language processing capabilities to ensure that it provided accurate and relevant responses to user queries.

2. CityTrack Website

- This website allows the citizens to file complaints related to issues such as broken street lights, damaged roads, or other problems that negatively impacted the city's infrastructure. The system utilized PHP to store and manage complaints, ensuring that the complaints were properly documented and addressed by the relevant authorities.

3. Personal Portfolio

- A personal portfolio website is an excellent way to showcase my skills, experiences got on project making, and accomplishments.
- It is a website that I have designed myself to represent my personal identity.
- With the effective use of HTML, CSS, Bootstrap and Javascript. I have efficiently developed this creative portfolio.
